

# IEEE Product Safety Engineering Society

January 12, 2023

Subject: PSES Corporate Sponsorship

To whom it may concern:

As we enter the new year and with the IEEE PSES reinstating its flagship symposium back to a Springtime event in May 2023, IEEE PSES is reaching out to you and your company to consider IEEE PSES Corporate Sponsorship for 2023. The program was offered last year, and it was deemed as a success in providing many companies to take advantage of some great savings and IEEE PSES benefits.

With near record attendance at last year's Symposium, we were excited to have an abundance of young engineers in attendance who we aspire on to be the next generation of professional safety and compliance engineers.

The IEEE PSES Corporate Sponsorship program helps the society grow and continue to add more and more value benefits and at the same time gives back to companies by providing significant cost savings and benefits such as free symposium admissions, company virtual product safety training, attending monthly virtual chapters with keynote technical speakers, and mentoring. Please refer to the attached IEEE PSES Corporate Sponsorship Flyer which outlines the cost savings and benefits.

We sincerely hope that you will join us in the IEEE PSES Corporate Sponsorship Program to help support the society and to enable people from your company to participate in a long-standing well recognized safety and compliance learning society to help grow their skills and knowledge in the safety compliance world.

Thank you and we look forward to your support.

Sincerely

Jeff Pasternak  
IEEE PSES Corporate Sponsorship Program  
IEEE Product Safety Engineering Society

If you have any questions or want to simply learn more about the sponsorship program please contact Jeff Pasternak at [pses.corpsponsor@gmail.com](mailto:pses.corpsponsor@gmail.com)
